Evidence Storage and Management: Operations and Best Practices

**Register at: Evidence Storage and Management
or at www.on-targetsolutionsgroup.com**

Who should attend: This seminar is designed for both civilian/sworn personnel with custodial duties and those responsible for the management of these functions including supervisors and executives. Agency size often impacts involved storage variables - presented materials can identify employable options to preserve evidence integrity from unwarranted courtroom challenges.

These often out of sight - out of mind minutia level duties, if neglected, have insidious damage potentials. Criminal prosecution efforts combined with an agency's public reputation can be damaged. Numerous media reports indicate the careers of executives and assigned personnel have repeatedly been damaged for failing to continuously and appropriately manage this assignment.

Systematic evidence storage duties are often assigned with little or no functional training. The involved transactional procedures require efforts uncommon to other business type storage facilities. This one-day non-legal best practice course is designed for managing a professional evidence storage operation.

Topics Include:

- Gatekeeper/Right of Refusal Concepts
- Safety Aspects
- Integrity Packaging
- Storage Area Security
- Critical Documentation - Whys
- Internal Integrity and Audit
- Digital Storage Considerations
- Professional Advancement
- Management
 - Personnel
 - Access Control
 - Error Response
 - Malfeasance
 - Agency Confidence
